

CITIZENS' CHARTER

The Cantonment Board, Ahmednagar presents to its citizens a path breaking CITIZENS' CHARTER in an earnest attempt to provide the highest standards of service and to make the Cantonment Board, Ahmednagar area a better place to live in.

We seek the co-operation of the citizens in this endeavor. Nothing that we promise can be achieved without the people's active and constructive participation.

This Charter details the citizens' entitlement to municipal services, quality of services, access to information, stages in decision-making, and time- bound schedules of services, sanctions and approvals.

This is the first attempt to document the services we provide. It gives a sweeping idea of the promises we have made.

We hope the citizens will use this Charter as a source of reference. It would be of immense help to us if they inform us about non-compliance of any term of the Charter.

We hope to improve and revise the Charter as we go along. Although we will do our best to fulfill our commitments by providing efficient, timely and transparent services, this document is not justifiable.
